INSTRUCTIONS

Under the state regulations to implement the NOx Budget Trading Program, the owners and operators for each budget source must designate a representative, and may designate an alternate, to act on their behalf. The owners and operators should choose the representative through a process that ensures that all owners and operators have notice regarding the selection. All budget sources at a plant must have the same Authorized Account Representative. The Authorized Account Representative is responsible for all submissions and allowance transactions relating to the budget sources at that plant. The Authorized Account Representative and the Alternate Authorized Account Representative are liable for acts or omissions within the scope of their responsibilities under the NOx Budget Trading Program. EPA will not record an allowance transaction until it has received a complete Account Certificate of Representation.

Please type or print. If more space is needed, photocopy the first page. Indicate the page order and total number of pages (e.g., 1 of 4, 2 of 4, etc.). *Note: An Account Certificate of Representation amending an earlier submission supersedes the earlier submission in its entirety. A revised Account Certificate of Representation must therefore be complete, including signature and dating by the Authorized Account Representative (and the Alternate, if applicable).*

Submit one Account Certificate of Representation form with *original* signatures. Remember that the Authorized Account Representative should notify each owner and operator of all NOx Budget Program submissions.

For assistance, call the EPA's Clean Air Markets Division Hotline at (202) 564-9620.

STEP 1: If any budget source at the plant is affected by the Acid Rain Program, the ORISPL code is embedded in the first six digits of the unit account number for that source under the Acid Rain Program. If there are not any budget sources at the plant affected by the Acid Rain Program, a budget source should use the plant or facility code registered with the Department of Energy (DOE) to obtain an ORISPL code. (For utilities reporting on the EIA-767, -860, and -861, the plant code would be

used as the ORISPL code. For nonutilities reporting on the EIA-867, the facility code would be used as the (ORISPL code).

If the budget source does not report to DOE, and therefore does not have an ORISPL code, the budget source should call the Acid Rain Program Hotline for assistance.

STEP 2: The Authorized Account Representative must be a natural person and cannot be a company. Please enter the firm name and address as it should appear on all correspondence.

EPA Form 7620-16

Note: All EPA correspondence is mailed to the Authorized Account Representative only. An Alternate Authorized Account Representative must rely on the Authorized Account Representative to forward information mailed by EPA.

STEP 4 The owners and operators may be companies or natural persons. Identify each budget source at the plant that is owned or operated by the named party by providing the unit identification number for the budget source. If a budget source is affected by the Acid Rain Program, the source should

determine an appropriate ID# that it will use for all NOx Budget Trading Program purposes. This ID# must be six digits or less.

STEP 5 Note the certification statement.

SUBMISSION INSTRUCTIONS:
